4" X 10" DOOR HANGER

TRIM LINE - ACTUAL SIZE OF THE FINAL DESIGN

You can position this as low or high as the slit will allow while still bleeding off the top.

For multiple-up runs, we can space as needed dependent on your doorhanger width.
(must slit off the top as shown)

Quantity of run would best determine how many up is most economical

For 1-up doorhangers, we can also slit off the side - at 90° to this perspective

Available in both 1.25" and 1.5" holes
